In serving as a temporary caretaker during a foster child's stay with a foster family, one of the many important functions of the foster parent(s) is transportation of the foster child to and from appointments and activities. While professional staff may assist with transportation on occasion as their schedule allows, foster parents should not rely on case managers for continuous transportation. Foster parents should expect that children in foster care will require more transportation than typical for a child not in foster care.

I/we will occasionally rely on other individuals (other than the parents) to help/assist with transportation needs. *(This may include appropriate and dependable persons who reside in or outside of the family home, and may or may not be related to the family).* **Complete the box below if this option is marked.**

(Use back of page for additional individuals. Please include all above information). Background checks may be required of these individuals, depending on the frequency and level of contact/supervision provided by the transporter.

I agree to provide transportation services for foster children in my care. I understand arranging transportation services, when I am not able to provide it myself, is my responsibility. I understand that Children's Bureau, Inc. case managers are not responsible for providing transportation for foster children placed in my care, but may provide assistance when available. Furthermore, I agree to follow safe driving practices and comply with all child restraint laws while transporting children in any vehicle.

By signing below, I(We) attest that I(we) currently have and will continuously maintain automobile insurance, without lapse, on any and all of our vehicles that foster children are transported in.
